16th June, 1960

Present: Belgium (Luxembourg), Canada, Denmark, France, Germany, Italy, Netherlands, United Kingdom, United States.

1. The UNITED KINGDOM Delegate referred to the German Delegate's last statement on the interpretation of Item 1133(a) (COCOM Document 3711.33/5) and stated that he was now able to give his Government's final views. After fresh study, the United Kingdom authorities found it possible to associate themselves with the position taken up by the German authorities and considered that the valves concerned were indeed covered by the embargo established in Item 1133(a).

2. The GERMAN Delegate thanked his United Kingdom colleague for his statement, which would be appreciated by the German authorities.
